Career Objective

Dedicated Data Analyst & Business Intelligence Specialist with advanced academic training in Information Systems from the Faculty of Computers and Artificial Intelligence. Passionate about transforming raw, unstructured datasets into clean, actionable insights and interactive visual dashboards. Bringing hands-on expertise in Python, SQL, Power BI, and exploratory data analytics.

Education

- **Beni Suef University** — Beni Suef, Egypt
  Bachelor of Science in Information Systems, Faculty of Computers and Artificial Intelligence — *2024 – 2028*
- **High School** — El Wasta, Beni Suef, Egypt
  Secondary Education & Foundational Sciences — *2021 – 2023*

Experience

- **Data Analyst Trainee** — July 2026 – Dec 2026
  NTI & DEPI Training Program — *Egypt*
  – Gained intensive practical experience working with real-world enterprise datasets.
  – Performed data cleaning, exploratory data analysis (EDA) using Python and SQL.
  – Built automated interactive business intelligence dashboards and reporting tools.

- **BI & Analytics Specialist (Practical Projects)** — Ongoing
  Independent & Academic Projects — *Egypt*
  – Designed and deployed commercial dashboards covering road safety risk intelligence and superstore sales performance.
  – Applied advanced Excel, Power BI, and Tableau to evaluate regional revenue generation and pricing drivers.

Courses and Certificates

- **Data Fundamentals** – IBM SkillsBuild (Verified Credential)
- **Data Analytics Excellence** – National Telecommunication Institute (NTI)
- **Student Mega Project Certificate** – IEEE Season 10

Skills

- **Programming Languages:** Python, SQL (MySQL), C++, R
- **Data Analytics & BI:** Power BI, Tableau, Advanced Excel, Power Pivot, Power Query, DAX
- **Data Science Libraries:** Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn
- **Core Competencies:** Data Cleaning, Exploratory Data Analysis (EDA), Dashboard Development, Statistical Analysis, Database Management

Projects

- **Road Accident Severity & Risk Intelligence** — Sept 2026
  Python, SQL, Power BI, Tableau — *[View Project]*
  – Analyzed UK collision datasets to uncover high-risk patterns related to weather, time, and road conditions.

- **Superstore Sales & Profit Performance** — sept 2026
  Power BI, Excel, DAX — *[View Project]*
  – Built an interactive commercial dashboard analyzing multi-year sales trends, regional profit margins, and customer segment contributions.

- **Used Car Market & Pricing Analytics** — Aug 2026
  Python, Pandas, Data Cleaning — *[View Project]*
  – Conducted exploratory data analysis and data cleaning on 2,000+ car records to evaluate pricing drivers, mileage, and brand valuations.

- **Sales & Regional Revenue Performance** — Jule 2026
  Advanced Excel, Power Pivot — *[View Project]*
  – Analyzed 500k+ commercial sales transactions to evaluate regional revenue generation, top sales representatives, and product distribution.

Extracurricular Activities

- **IEEE Season 10:** Active member and participant in student mega projects and collaborative technical workshops.
- **Digital Egypt Pioneers Initiative (DEPI):** Engaged in specialized skill development assignments and freelancing preparation programs.
